MONOLITH HACKATHON 2026

THE OPERATING SYSTEM FOR GLOBAL GENEROSITY.

THE PROBLEM

THE $500B TRUST GAP.

Billions flow into charitable giving every year. The system that moves it is slow, opaque, and disconnected from the people it serves.

$592.5B	26.3%	74%	3-8%
ANNUAL US GIVING	DONOR RETENTION	NEVER GIVE AGAIN	PLATFORM FEES

"3 out of 4 donors never give again. Not because they stopped caring. Because nobody showed them what happened."

THE SOLUTION

SEE WHAT YOUR MONEY DID.

ZERO FEES

Every dollar goes forward. No platform cut. No processing fee. No middleman.

ON-CHAIN PROOF

Permanent Solana receipt. Wallet, amount, timestamp — immutable and publicly verifiable.

REAL CONNECTION

A conversation opens after every donation. You see what happened. That's what makes someone give again.

CONNECT → GIVE USDC → SEE PROOF

THE OPPORTUNITY

116,000 DEVICES. 50+ COUNTRIES.

68% of Seeker devices are outside the Americas. This isn't a US product. This is a world mission.

37,115	32,047	24,095	22,801
AMERICAS • 32%	EUROPE • 28%	ASIA-PACIFIC • 21%	OTHER • 20%

Built for Seeker. Deployed globally. The easiest path to your first 10,000 paying users on mobile crypto.

BUSINESS MODEL

THE TRUST LAYER FOR GIVING.

Glimpse is the infrastructure that proves a dollar did what it was supposed to do. Zero fees on donations. Revenue from business partnerships.

PARTNER FUNDS → GLIMPSE VERIFIES → PROOF ON-CHAIN → EVERYONE SEES IT

HOW WE MAKE MONEY

Business partnerships and sponsored campaigns. Donors never pay. Every dollar given goes forward. Revenue comes from companies who want to invest in their community through verified, on-chain impact.

THE VISION

CONTENT DRIVES DONATIONS. PROOF DRIVES MORE.

Glimpse turns every dollar into a story. Impact content is inherently viral. Proof creates trust. Trust creates donors. Donors fund more impact.

CONTENT → DONATIONS → PROOF → ↺ FLYWHEEL

IMPACT AT SCALE

Any person, any country, any cause. Global giving infrastructure on Solana.

ZERO-FEE RAILS

Stablecoin transfers. On-chain receipts. Direct giver-to-impact connection.

GOVERNANCE

$GLIMPSE holders vote on capital allocation. Efficient operators win.

ROADMAP

GROWTH IS PURPOSEFUL.

PHASE 1

Now – June 2026

One city. Muscatine. Prove the loop works. Win the hackathon. Close first brand partnerships. Build the content engine.

PHASE 2

June 2026

2–5 more cities. Funded by raise. Deployed to highest-density Seeker regions. Content flywheel begins.

PHASE 3+

Each raise funds the next wave

Expand city by city. Token governance decides which regions grow next. Revenue + raises fund growth.

THE MODEL

Each raise funds the next wave of expansion. Revenue from brand partnerships sustains existing cities. The flywheel is self-reinforcing: content drives donations, donations fund proof, proof drives more content.

THE FOUNDER

FOUR YEARS OF CONVICTION.

NFT project, partner search, traditional fundraising — none of it worked. Now I built it myself.

DERRICK WOEPKING

FOUNDER & SOLO BUILDER — MUSCATINE, IOWA

- Built the entire product solo — app, backend, on-chain integration
- 4 years of conviction before AI tooling made it possible to build alone
- Personally knows nonprofit founders — has seen the system from the inside
